

## Provide a Module Roadmap

Learning modules, like units of study, are sequenced collections of course materials and serve as the building blocks of an online course. Modules can be organized by time (“Here’s what we’re doing this week.”) or by content (e.g., topic, chapter in a text, unit of study, etc.). Consistency in module design helps students more quickly understand and meet your expectations.

<b>Module identifiers</b>	Week or module number Beginning and end dates Unit name or topic
<b>Module introduction</b>	How does the topic fit in with what we have been doing so far? How does it connect to the course learning outcomes?
<b>Learning outcomes</b>	List the course learning outcomes that are being addressed in this module.
<b>Activities and assignments</b>	List activities and assignments in the order in which students should complete them. Include links to resources needed and clearly defined due dates.
<b>Multimedia resources and required readings</b>	Provide reference information and links for required or additional readings and multimedia resources.
<b>Reminders of upcoming or ongoing assignments</b>	Remind students of long-term assignments. Make connections to next week’s work, and provide guidance on how to prepare for next week.

## Module Roadmap Template

<b>Module identifiers</b>	
<b>Module introduction</b>	
<b>Learning outcomes</b>	
<b>Activities and assignments</b>	
<b>Multimedia resources and required readings</b>	
<b>Reminders of upcoming or ongoing assignments</b>
