Accessing the SWU_Secure Wifi

If you are experiencing issues of being "kicked off" the wifi or "connected but no internet" please follow the guide below.

Ensure you are connected to SWU_Secure on your device (laptop, desktop, phone, tablet, etc.) by going to the Network Settings.

The password for SWU_Secure is **Warriors**

1. To get the SafeConnect sign-in page to appear, please type 10.0.80.1 into the search bar of your browser. You may receive a warning appear depending on the browser you are using.

2. Please click the Advanced button and then click either Accept the Risk and Continue or Proceed to 10.0.80.1.

3. If the swu.edu home page opens, you have been reconnected to the internet. Otherwise, a sign-in page will appear asking for a username and password.

   Your **Username** is the first part of your SWU email (ex. **j12345smith**@mail.swu.edu). Your **Password** is the **same** password you use to sign-in to your **SWU email**.

4. Click the I Accept the Acceptable Use Policy check box, then click Sign In.

If you have any questions or issues accessing SWU_Secure or getting the sign-in page to appear, please contact TechSupport@swu.edu *or call 864-644-5050.*
